

Wheel Of Life -Part II

Enfants des Etoiles

YIN

sun shine on me
shine into my heart
give out your warmth
give life to plants

take care of us
let us live in harmony
with the world around us
with peace inside

nous sommes du soleil

YANG

moon shine on me
illuminate the world
be my guide
through the night

throw your shadow on the world
give birth to the rites of the night
shine on beltane fire

nous sommes de la lune

Music by Robert Sillat, arranged by the Principles of Uncertainty

TERTIUM DATUR

stars shine on me
sparkle from the universe
give me the strength from depth
inspire our insight

bring yearning to me
to unfold the hidden worlds

nous sommes des enfants d'etoiles

WHEEL OF LIFE

fire from within
take care of my soul
give power to move
the wheel of life

*we are autonomous systems living on a 3-brane**

** the last line was not included in the Principles Of Uncertainty's version*
